

Grenoble (France)

Angèle

Our community lives at the foot of the mountains, in a multicultural district of 20,000 inhabitants. We are 5 sisters.

We want to be a presence of the Church, in this place which is rich in solidarity but also in tensions: a space where many nationalities live side by side

For the past two and a half years, I have been working in a nursery school where I have been accompanying a little girl with Down's syndrome and an autistic child. Since 2007, I have also been working for an Association serving families that are often highly vulnerable, and I take care of children, disabled or not, in their daily lives.

"In a world divided, yet straining towards unity, we try to discern in every situation, the action of the Risen Christ."

(Rule of Life 9)
