

## MISSION OF THE SISTERS IN COLLE CAGIOLI (Italy)

**Sister Eugenia**

I visit people in their homes or Care Homes bringing Communion to the sick (physically or psychologically). I find many problems in families : separation, unemployment, poverty... We cannot solve all the problems but what we can do is : LISTEN, PRAY, BRING food and clothing to the poorest.

**Sister Suzanne** : Every Wednesday I work at CARITAS.

When we welcome people, the first thing we do is to spend a little time listening to them ; their problems and their needs and only after that do we give them clothes and food.

They are numerous : more than 200 families! that is why we can give food only once each month. We come across special cases also : people who need financial help, a midday meal etc...

In the afternoon I go with another lady to bring communion to a Care Home where there are over 30 people. I bring communion to 8 people (seven families) : three people receive communion each week and five receive communion once each month according to their wishes. I try to stay for half an hour but with those who live alone I spend one hour... this pleases them greatly because their problem is that their children do not have time to listen to them any more. Nevertheless, they need to be listened to even if they repeat the same thing over and over again !

**Sister Susanna** :

I participate in the Sisters' mission through my prayer. I replace Suzanne in the kitchen when she is absent. I welcome those who come to visit us.
